Python Playground: Geeky Projects for the Curious Programmer Mahesh Venkitachalam

Python is a powerful programming language that's easy to learn and fun to play with. But once you've gotten a handle on the basics, what do you do next?

Python Playground is a collection of imaginative programming projects that will inspire you to use Python to make art and music, build simulations of real-world phenomena, and interact with hardware like the Arduino and Raspberry Pi. You'll learn to use common Python tools and libraries like numpy, matplotlib, and pygame to do things like:

- Generate Spirograph-like patterns using parametric equations and the turtle module
- Create music on your computer by simulating frequency overtones
- Translate graphical images into ASCII art
- Write an autostereogram program that produces 3D images hidden beneath random patterns
- Make realistic animations with OpenGL shaders by exploring particle systems, transparency, and billboard techniques
- Construct 3D visualizations using data from CT and MRI scans
- Build a laser show that responds to music by hooking up your computer to an Arduino

Programming shouldn't be a chore. Have some solid, geeky fun with *Python Playground*.

From reader reviews:

Deborah Rinehart:

Within other case, little persons like to read book Python Playground: Geeky Projects for the Curious Programmer. You can choose the best book if you want reading a book. So long as we know about how is important some sort of book Python Playground: Geeky Projects for the Curious Programmer. You can add know-how and of course you can around the world by way of a book. Absolutely right, mainly because from book you can realize everything! From your country until eventually foreign or abroad you will find yourself known. About simple issue until wonderful thing you could know that. In this era, we can open a book or perhaps searching by internet gadget. It is called e-book. You can utilize it when you feel bored stiff to go to the library. Let's go through.

Patricia Gagliano:

Book will be written, printed, or created for everything. You can recognize everything you want by a book. Book has a different type. As it is known to us that book is important issue to bring us around the world. Close to that you can your reading ability was fluently. A publication Python Playground: Geeky Projects for the Curious Programmer will make you to be smarter. You can feel more confidence if you can know about everything. But some of you think this open or reading the book make you bored. It isn't make you fun. Why they may be thought like that? Have you in search of best book or appropriate book with you?

Ronna Rutledge:

Reading a book to get new life style in this year; every people loves to learn a book. When you read a book you can get a great deal of benefit. When you read books, you can improve your knowledge, because book has a lot of information onto it. The information that you will get depend on what kinds of book that you have read. If you would like get information about your examine, you can read education books, but if you act like you want to entertain yourself look for a fiction books, these us novel, comics, as well as soon. The Python Playground: Geeky Projects for the Curious Programmer will give you a new experience in reading through a book.

Lise Callicoat:

As a scholar exactly feel bored to help reading. If their teacher asked them to go to the library as well as to make summary for some e-book, they are complained. Just minor students that has reading's heart and soul or real their hobby. They just do what the educator want, like asked to the library. They go to presently there but nothing reading seriously. Any students feel that reading is not important, boring and also can't see colorful photos on there. Yeah, it is to be complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this Python Playground: Geeky Projects for the Curious Programmer can make you sense more interested to read.
