James W. Albers, Stanley Berent

Neurobehavioral Toxicology: Neurological and Neuropsychological Perspectives, Volume II: Peripheral Nervous System James W. Albers, Stanley Berent

This book, the second of three volumes, concentrates on peripheral nervous system disorders. Examining the effects of neurotoxicants on nerve, muscle and the neuromuscular junction, it builds on the scientific principles outlined in volume 1 by looking at the application of the methods discussed, particularly in terms of the evaluation and diagnosis of individual patients and the related process of establishing causation.

Neurobehavioral Toxicology, Volume 2 will be of interest to practicing neurologists and neuropsychologists, as well as to occupational medicine physicians and medical toxicologists.
