For eight years Al and his children were faced with exposures of the supernatural in a house that they were bound to. For monetary reasons, they were unable to relocate leaving them no choice but to adapt and learn ways to overcome these physical and emotional obstacles. Experiencing the supernatural compelled him to search both the paranormal philosophy and Christian Theology. In researching the paranormal, the reality of a dark world became clear to him. He realized he was not alone after hearing other people's stories of similar experiences and from what he read, or viewed on television. What he was seeing at his house was real. Learning more of God's word he began to see how important the bible is for our soul. Using the Book of Romans in the bible Al discovers for his family an increasing soul level from condemnation to salvation. Salvation includes; justification, sanctification, dispensation and glorification. Al cites original historical definitions of the soul, analyzes biblical sources, and uses charts and graphs to help us understand ourselves spiritually. He also reminds us living a virtuous lifestyle can help us understand our own journey through this world. By showing each of the seven deadly vices for each of the seven Godly virtues we can identify when we begin to stray through life's temptations. By choosing our virtues our strength with God increases. Further reading shows and compares how Christ is able to teach us more about our souls and where our soul resides within our physical being. Throughout our soul level journey we are capable of experiencing greater spiritual heights. His family grew together spiritually and changed their supernatural environment. Everyone experiences their own life's challenges at some level at some point in their lives. By sharing his story, Al hopes to encourage others to engage in their own soul level journey in order to combat their own unique life's obstacles and find peace in their lives. As humans we are complex beings. We never truly die; our essence passes on to another world. It just might be that who we become in this world may have everything to do with who we become in the next.
