Mathematics for Physical Chemistry, Fourth Edition

Robert G. Mortimer

Mathematics for Physical Chemistry, Fourth Edition Robert G. Mortimer

Mathematics for Physical Chemistry is the ideal supplementary text for practicing chemists and students who want to sharpen their mathematics skills while enrolled in general through physical chemistry courses. This book specifically emphasizes the use of mathematics in the context of physical chemistry, as opposed to being simply a mathematics text.

This 4e includes new exercises in each chapter that provide practice in a technique immediately after discussion or example and encourage self-study. The early chapters are constructed around a sequence of mathematical topics, with a gradual progression into more advanced material. A final chapter discusses mathematical topics needed in the analysis of experimental data.

* Numerous examples and problems interspersed throughout the presentations * Each extensive chapter contains a preview and objectives * Includes topics not found in similar books, such as a review of general algebra and an introduction to group theory * Provides chemistry-specific instruction without the distraction of abstract concepts or theoretical issues in pure mathematics

From reader reviews:

Connie King:

Do you have favorite book? For those who have, what is your favorite's book? Book is very important thing for us to know everything in the world. Each reserve has different aim or perhaps goal; it means that publication has different type. Some people truly feel enjoy to spend their a chance to read a book. They can be reading whatever they consider because their hobby is usually reading a book. What about the person who don't like reading a book? Sometime, individual feel need book if they found difficult problem or maybe exercise. Well, probably you will need this Mathematics for Physical Chemistry, Fourth Edition.

Jean Gaskin:

Have you spare time to get a day? What do you do when you have much more or little spare time? Yep, you can choose the suitable activity to get spend your time. Any person spent their particular spare time to take a walk, shopping, or went to the actual Mall. How about open or maybe read a book entitled Mathematics for Physical Chemistry, Fourth Edition? Maybe it is for being best activity for you. You know beside you can spend your time with the favorite's book, you can wiser than before. Do you agree with the opinion or you have different opinion?

Fred Musso:

Information is provisions for people to get better life, information currently can get by anyone with everywhere. The information can be a expertise or any news even an issue. What people must be consider when those information which is in the former life are hard to be find than now is taking seriously which one works to believe or which one typically the resource are convinced. If you find the unstable resource then you buy it as your main information there will be huge disadvantage for you. All of those possibilities will not happen throughout you if you take Mathematics for Physical Chemistry, Fourth Edition as your daily resource information.

Joan Stump:

A number of people said that they feel uninterested when they reading a e-book. They are directly felt the idea when they get a half parts of the book. You can choose typically the book Mathematics for Physical Chemistry, Fourth Edition to make your current reading is interesting. Your personal skill of reading expertise is developing when you like reading. Try to choose basic book to make you enjoy to read it and mingle the idea about book and looking at especially. It is to be very first opinion for you to like to open a book and examine it. Beside that the guide Mathematics for Physical Chemistry, Fourth Edition can to be a newly purchased friend when you're really feel alone and confuse in what must you're doing of the time.
