-Can the answers to some secrets of the universe be found within our unconscious? -Does God really need Man? -Did Jesus Christ use the sacred mushroom? -What is the role of the subtle body and how is it animated? While others in our modern society have used the sacred mushroom solely as a doorway to pleasure, the author has helped to pioneer its use as a vehicle and guide for coping with the very powerful forces that are found within the psyche. By combining its use with a focus on the body and the breath, he was able to explore the dark side of both God and Man in new ways. During 138 encounters that took place over a 10 year period, he descended into the primordial and instinctual depths of the unconscious mind in a gnostic-like experiential journey of discovery of the self and archetypal entities. This book recounts 44 encounters of the 138 sessions that took place during the ten year journey and its revelations as he rediscovers the cerebellum as a religious organ, and affirms that the archetypal world as described by Carl Jung does exist, but not in this dimension.
