Comfort Control in Buildings (Advances in Industrial Control) Maria del Mar Castilla, José Domingo Álvarez, Francisco de Asis Rodriguez, Manuel Berenguel

The aim of this book is to research comfort control inside buildings, and how this can be achieved through low energy consumption. It presents a comprehensive exploration of the design, development and implementation of several advanced control systems that maintain users' comfort (thermal and indoor air quality) whilst minimizing energy consumption. The book includes a detailed account of the latest cutting edge developments in this area, and presents several control systems based on Model Predictive Control approaches. Real-life examples are provided, and the book is supplemented by illustrations, tables, all of which facilitate understanding of the text.

Energy consumption in buildings (residential and non-residential) represents almost the half of the total world energy consumption, and they are also responsible for approximately 35% of CO₂ emissions. For these reasons, the reduction of energy consumption associated with the construction and use of buildings, and the increase of energy efficiency in their climatic refurbishment are frequently studied topics in academia and industry. As the productivity of users is directly related to their comfort, a middle ground needs to be found between comfort of users and energy efficiency. In order to achieve this, it is necessary to develop innovation and technology which can provide comfortable environments with minimum energy consumption. This book is intended for researchers interested in control engineering, energy and bioclimatic buildings, and for architects and process control engineers. It is also accessible to postgraduate students embarking on a career in this area, particularly those studying architecture.

From reader reviews:

Roy Christy:

Do you among people who can't read gratifying if the sentence chained within the straightway, hold on guys this aren't like that. This Comfort Control in Buildings (Advances in Industrial Control) book is readable through you who hate those straight word style. You will find the details here are arrange for enjoyable studying experience without leaving even decrease the knowledge that want to supply to you. The writer regarding Comfort Control in Buildings (Advances in Industrial Control) content conveys objective easily to understand by lots of people. The printed and e-book are not different in the content but it just different by means of it. So , do you continue to thinking Comfort Control in Buildings (Advances in Industrial Control) is not loveable to be your top list reading book?

Darius Cramer:

The guide with title Comfort Control in Buildings (Advances in Industrial Control) possesses a lot of information that you can find out it. You can get a lot of benefit after read this book. This book exist new understanding the information that exist in this guide represented the condition of the world now. That is important to yo7u to be aware of how the improvement of the world. That book will bring you with new era of the globalization. You can read the e-book on your smart phone, so you can read this anywhere you want.

William Fields:

Often the book Comfort Control in Buildings (Advances in Industrial Control) has a lot info on it. So when you check out this book you can get a lot of gain. The book was written by the very famous author. The author makes some research previous to write this book. This particular book very easy to read you may get the point easily after scanning this book.

Kimberly Dyer:

Guide is one of source of knowledge. We can add our expertise from it. Not only for students but native or citizen will need book to know the up-date information of year in order to year. As we know those publications have many advantages. Beside we add our knowledge, also can bring us to around the world. From the book Comfort Control in Buildings (Advances in Industrial Control) we can take more advantage. Don't one to be creative people? For being creative person must want to read a book. Only choose the best book that ideal with your aim. Don't end up being doubt to change your life by this book Comfort Control in Buildings (Advances in Industrial Control). You can more pleasing than now.
