Sovereignty and Struggle: Africa and Africans in the Era of the Cold War, 1945-1994 (African World Histories) Jonathan T. Reynolds

Sovereignty and Struggle: Africa and Africans in the Era of the Cold War, 1945-1994 provides students with a deeper insight into African history during the period of decolonization and the Cold War. Examining Africa and Africans in the context of the global themes of liberation, economic development, and popular culture, author Jonathan T. Reynolds illustrates how Africans sought to define their own lives on a global stage.

The first three chapters of *Sovereignty and Struggle* offer a thematic approach, covering the politics of early liberation struggles, economics, and global Cold War complexities. They provide students with insight into the motivations and aspirations of Africans from around the continent during the Cold War period. The last two chapters focus on pop culture--music, nation building, and identity--and specifically on popular representations of mobility, modernity, and sovereignty in Ghana during the 1950s and 1960s.
