A Photography For Beginners Quick-Start Guide To Amazing Photos...This Manual For Grasping Photography Quickly and Easily For Beginners Will Have You Instantly Up To Speed Creating Amazing Images!

Thanks to the explosion of hand-held technology, almost all of us have cameras these days. They are available on our phones, on our computers, tablets, and even can be found in fashion accessories! However, to be able to take truly breathtaking shots, the sort of photographs that you remember and cherish from your wedding day or your anniversary, usually requires something a little more special. This guide will help you transform your usual photographing habits, allowing you the freedom to respond to memorable situations how you want, and capture exactly the details that you want to.

This photography for beginners guide is especially useful for anyone who has ever...

- * Been disappointed with the outcome of their pictures.
- * Wondered why their pictures look flat, dull, or glassy even when they have all of the correct elements in place.
- * Taken pictures where the subject doesn't look quite right thanks to clipped hands, feet and the top of his head.
- * Experienced photographs sometimes suffering from being out of focus, or from light glare in some areas.

If you have experienced any of the above, then this simple guide is for you! Especially designed for the beginner, this guide will take you on a tour of your camera, describing how all of its various parts work, before explaining how to take amazing pictures!

Whatever your model or make of camera, all cameras operate under the same principle, and this guide teaches you to grasp those guiding principles. We have included special discussions on digital as well as manual cameras so you don't have to fear that this guide will not suit your model!

Have you ever wondered what all of those terms like f-stop, ISO, white balance and aperture stand for in complicated photography manuals? This guide will show you the simple science behind all of the jargon, and cuts out the unnecessary terms that you don't need to know.
