Stefan Silbernagl, Florian Lang

Color Atlas of Pathophysiology (Basic Sciences (Thieme)) Stefan Silbernagl, Florian Lang

Concise and packed with instructive detail, the second edition of this bestselling full-color atlas is the ideal choice for students. It includes the latest scientific knowledge about molecular and genetic causes of disease and promising new therapies.

Each two-page color spread shows the causal relationships between disturbances of physiologic processes and explains the resulting malfunction and illness. Color illustrations carry the reader through sections on temperature and energy, blood, respiration, the kidney, the digestive system, the heart and circulation, metabolism, hormones, and the neuromuscular and sensory system. Throughout the book, the authors provide brief informational nuggets that review basic physiology.

Features of the second edition:

- New and timely information on adult respiratory distress syndrome, hyperoxia, oxidative stress, polycystic kidney disease, chronic inflammatory bowel disease, metabolic syndrome, copper metabolism and Wilson's Disease, and disproteinemas
- 190 full-color illustrations - clearly organized and systematically color-coded - that clarify complex relationships
- Thorough coverage of abnormalities of intercellular signal transmission, aging and life expectancy, pathophysiology of bone, and heart failure, and more
- Highlighting of key words and paragraphs for easy navigation

The second edition of **Color Atlas of Pathophysiology** is an essential companion for students during their clinical studies, both as a study tool and as a key reference. It also serves as a handy refresher for clinicians and allied health professionals.

From reader reviews:

Rosa Crowe:

What do you think of book? It is just for students since they are still students or the item for all people in the world, the actual best subject for that? Only you can be answered for that question above. Every person has various personality and hobby per other. Don't to be pressured someone or something that they don't would like do that. You must know how great in addition to important the book Color Atlas of Pathophysiology (Basic Sciences (Thieme)). All type of book are you able to see on many solutions. You can look for the internet methods or other social media.

George Privette:

Book is to be different per grade. Book for children until finally adult are different content. As you may know that book is very important for us. The book Color Atlas of Pathophysiology (Basic Sciences (Thieme)) seemed to be making you to know about other expertise and of course you can take more information. It is rather advantages for you. The e-book Color Atlas of Pathophysiology (Basic Sciences (Thieme)) is not only giving you considerably more new information but also to get your friend when you truly feel bored. You can spend your spend time to read your reserve. Try to make relationship with all the book Color Atlas of Pathophysiology (Basic Sciences (Thieme)). You never truly feel lose out for everything should you read some books.

Lillian Thornton:

Reading a guide tends to be new life style in this particular era globalization. With looking at you can get a lot of information that will give you benefit in your life. Having book everyone in this world can certainly share their idea. Guides can also inspire a lot of people. A great deal of author can inspire their particular reader with their story or perhaps their experience. Not only the storyline that share in the books. But also they write about the information about something that you need case in point. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book which exist now. The authors these days always try to improve their skill in writing, they also doing some investigation before they write to the book. One of them is this Color Atlas of Pathophysiology (Basic Sciences (Thieme)).

Sandra Easley:

This Color Atlas of Pathophysiology (Basic Sciences (Thieme)) is great reserve for you because the content which is full of information for you who all always deal with world and still have to make decision every minute. This particular book reveal it details accurately using great manage word or we can point out no rambling sentences within it. So if you are read that hurriedly you can have whole info in it. Doesn't mean it only provides you with straight forward sentences but difficult core information with splendid delivering sentences. Having Color Atlas of Pathophysiology (Basic Sciences (Thieme)) in your hand like getting the world in your arm, info in it is not ridiculous just one. We can say that no reserve that offer you world in ten

or fifteen minute right but this reserve already do that. So , this is certainly good reading book. Hey there Mr. and Mrs. stressful do you still doubt that?
