CD Version - 7 Compact Discs/Bonus CD: "Image Streaming for Children"/PDF Workbook

Take advantage of the same creative methods used by geniuses such as Einstein, Tesla, and Leonardo da Vinci.

John von Neumann, the mathematician and inventor of the computer, once calculated that the human brain can store up to two hundred and eighty quintillion (that's 280 followed by 18 zeros) bits of memory. Many call that a conservative figure. Estimates of brain speeds are also exponentially higher than the world's fastest computer.

It's common knowledge the human brain is powerful, but what did people like Einstein do to access the inherent genius of their minds? Mind development pioneer Dr. Win Wenger noticed a clear pattern. He found that geniuses are little more than ordinary people who have stumbled upon some knack or technique for widening their channels of attention. New scientific research suggests that the superior achievements of famous thinkers may have been more the result of mental conditioning than genetic superiority. Now, with The Einstein Factor, you can learn to condition your mind in the same way. Once you unleash the genius within you, you will improve your performance in virtually all aspects of mental ability, including memory, quickness, IQ, and learning capacity.

How can you best gain access to your own remarkable flow of inner perception? Over the past 30 years of exhaustive research, Dr. Wenger has found Image Streaming to be the answer. The technique he's developed opens the mind to a flow of symbolic imagery as potent as that of any dreams, but unlike dreaming, you can practice Image Streaming while you're wide awake. You can also do it any time or anywhere you want. In fact, 10 minutes of Image Streaming a day will induce profound positive changes in your life.
