The Federal Reserve Conspiracy Antony C. Sutton

Another fine and extremely well researched work by Antony C. Sutton. An expose' of the people and forces behind the takeover of the US economy by the Federal Reserve system, on behalf of the oligarchs. A must for anyone interested in the inner workings of US politics and economics, and the concealed reasons for current events. This is the first book that details hour by hour the events that led up to passage of the Federal Reserve Act of 1913 - and the many decades of work and secret planning that private bankers had invested to obtain their money monopoly.
