Cosmic Coincidences John Gribbin, Martin Rees

WAS THE UNIVERSE MADE FOR MAN? Is our universe the only one of its kind or are there others? Is it just a coincidence that life evolved on Earth or are the remarkable and unusual set of circumstances that brought about the emergence of humankind part of some deeper mystery that reveals an as yet unknown cosmic purpose? A PROVOCATIVE SEARCH THROUGH SPACE AND TIME FOR A COSMIC BLUEPRINT—AND THE SOURCE OF LIFE IN THE UNIVERSE In this intriguing exploration of our relationship with the universe, eminent physicist Martin Rees and acclaimed science writer John Gribbin search for the grand design of the universe—and the meaning of the so-called coincidences that allow life to exist on our planet. Rees and Gribbin present the advances in understanding the nature of dark matter (which controls the dynamics, structure, and eventual fate of the universe), explore mini and massive black holes, brown dwarfs, and novel forms of matter such as quark nuggets. Along the way they fascinate us with what scientists have already discovered about cosmic strings, superstrings, and the elusive TOE (theory of everything). They also speculate on the possibility of the existence of other universes and of other intelligent life in our own. An expert, exhilarating tour of cosmic evolution and human destiny. Cosmic Coincidences' investigation sheds new light on the monumental questions of why our universe is the way it is and why we are here. JOHN GRIBBIN, science writer and cosmologist, is the author of many books, including *In Search of Schrödinger's Cat*, *In Search of the Big Bang*, *In Search of the Double Helix*, and *The Omega Point*. MARTIN REES is a professor of astronomy and a colleague of Stephen Hawking's at Cambridge University. He is one of the world's leading theorists in the field of astrophysics. "A brilliant and highly readable tour through the Universe.... This is an authoritative and challenging book. It will spark hot debate among scientists and grasp the reader from start to finish" —F. David Peat, Ph.D., author of *Synchronicity* "A lucid and exciting guide... An evenhanded appraisal of the controversial 'anthropic principle.'" — Nick Herbert, author of *Quantum Reality*

From reader reviews:

David Ramos:

The book Cosmic Coincidences has a lot info on it. So when you make sure to read this book you can get a lot of advantage. The book was authored by the very famous author. Tom makes some research previous to write this book. That book very easy to read you will get the point easily after reading this book.

Josue Denson:

The reason? Because this Cosmic Coincidences is an unordinary book that the inside of the publication waiting for you to snap that but latter it will jolt you with the secret that inside. Reading this book close to it was fantastic author who all write the book in such awesome way makes the content on the inside easier to understand, entertaining technique but still convey the meaning fully. So , it is good for you because of not hesitating having this any longer or you going to regret it. This unique book will give you a lot of advantages than the other book get such as help improving your expertise and your critical thinking approach. So , still want to postpone having that book? If I ended up you I will go to the book store hurriedly.

Joan Freeman:

The book untitled Cosmic Coincidences contain a lot of information on the item. The writer explains her idea with easy technique. The language is very clear and understandable all the people, so do certainly not worry, you can easy to read it. The book was compiled by famous author. The author provides you in the new time of literary works. You can read this book because you can keep reading your smart phone, or gadget, so you can read the book with anywhere and anytime. If you want to buy the e-book, you can open their official web-site and order it. Have a nice study.

Michael Vogel:

Many people spending their time by playing outside using friends, fun activity using family or just watching TV 24 hours a day. You can have new activity to shell out your whole day by looking at a book. Ugh, you think reading a book really can hard because you have to bring the book everywhere? It okay you can have the e-book, delivering everywhere you want in your Touch screen phone. Like Cosmic Coincidences which is finding the e-book version. So , try out this book? Let's notice.
