Volcanic activity results in an outburst of materials in life threatening proportions. A typical volcano eruption will emit rocks, gas, and ash that plumes into the earth's atmosphere. The eruptions and the flow of the lava are capable of destroying lands and major cities to several miles. Even though not all the eruptions are the same, they do tend to terrify and disrupt the habitation in the surrounding regions. If you inhabit in a neighborhood that has the volcanic threat, it is in your best interest to learn about the preparations that you have to carry out to survive an eruption. Taking the time to learn about the preparations will protect you and your family from an unexpected eruption.

The eBook concentrates on the essential factors that play a primary role in preparedness. With the help of the topics covered in the book, you will be able to offer food, water, medical aid, and safety precautions to your family. You no longer have to wait for the government's assistance, which often results in time consumption.

The eBook covers the following topics:

- The way volcanoes work
- Preparation for an eruption
- Surviving an eruption
- Protection and safety implementations during volcanic activity
- Protection after an eruption
