Programming Windows®, Fifth Edition (Developer Reference)

Charles Petzold

Programming Windows®, Fifth Edition (Developer Reference) Charles Petzold

“Look it up in Petzold” remains the decisive last word in answering questions about Windows development. And in PROGRAMMING WINDOWS, FIFTH EDITION, the esteemed Windows Pioneer Award winner revises his classic text with authoritative coverage of the latest versions of the Windows operating system—once again drilling down to the essential API heart of Win32 programming. Topics include:

- The basics—input, output, dialog boxes
- An introduction to Unicode
- Graphics—drawing, text and fonts, bitmaps and metafiles
- The kernel and the printer
- Sound and music
- Dynamic-link libraries
- Multitasking and multithreading
- The Multiple-Document Interface
- Programming for the Internet and intranets

Packed as always with definitive examples, this newest Petzold delivers the ultimate sourcebook and tutorial for Windows programmers at all levels working with Microsoft Windows 95, Windows 98, or Microsoft Windows NT. No aspiring or experienced developer can afford to be without it.

An electronic version of this book is available on the companion CD.

For customers who purchase an ebook version of this title, instructions for downloading the CD files can be found in the ebook.

From reader reviews:

William Mayer:

Within other case, little men and women like to read book Programming Windows®, Fifth Edition (Developer Reference). You can choose the best book if you want reading a book. Given that we know about how is important a new book Programming Windows®, Fifth Edition (Developer Reference). You can add knowledge and of course you can around the world by way of a book. Absolutely right, mainly because from book you can understand everything! From your country until eventually foreign or abroad you can be known. About simple point until wonderful thing you may know that. In this era, you can open a book or even searching by internet product. It is called e-book. You may use it when you feel bored to go to the library. Let's learn.

Cindy Martin:

Information is provisions for anyone to get better life, information presently can get by anyone at everywhere. The information can be a know-how or any news even an issue. What people must be consider if those information which is in the former life are difficult to be find than now could be taking seriously which one works to believe or which one typically the resource are convinced. If you have the unstable resource then you buy it as your main information it will have huge disadvantage for you. All of those possibilities will not happen in you if you take Programming Windows®, Fifth Edition (Developer Reference) as your daily resource information.

Nora Mickey:

Precisely why? Because this Programming Windows®, Fifth Edition (Developer Reference) is an unordinary book that the inside of the reserve waiting for you to snap it but latter it will surprise you with the secret it inside. Reading this book adjacent to it was fantastic author who also write the book in such incredible way makes the content inside of easier to understand, entertaining way but still convey the meaning entirely. So , it is good for you for not hesitating having this ever again or you going to regret it. This amazing book will give you a lot of positive aspects than the other book have such as help improving your expertise and your critical thinking approach. So , still want to hold off having that book? If I had been you I will go to the reserve store hurriedly.

Mary Otter:

As we know that book is significant thing to add our information for everything. By a e-book we can know everything we wish. A book is a pair of written, printed, illustrated as well as blank sheet. Every year had been exactly added. This book Programming Windows®, Fifth Edition (Developer Reference) was filled in relation to science. Spend your free time to add your knowledge about your technology competence. Some people has several feel when they reading the book. If you know how big benefit of a book, you can feel enjoy to read a book. In the modern era like at this point, many ways to get book that you simply wanted.
