Nurture the scientific thinker in every student with Curious Crayons! Even with no science experience, every teacher of young children can be a great science teacher using this book and help students build a foundation for a lifetime of science learning.

Your students, ages 3-8 will use colorful crayons to foster age-appropriate science process skills through fun activities. They will observe, sort, compare, measure, investigate, and much more. Plus, cross curricular activities link crayon science to mathematics, literature, writing, art, and creative play.

Where else can students have so much colorful, science fun while following National Association for the Education of Young Children guidelines and National Science Education Standards for developmentally appropriate curriculum?
